The Great March.

A book with the above title, written by Major Nichols, General Sherman's staff,

has just been issued.

It is a lively and well written history of Sherman's grand

campaign through Georgia and the Carol-

inas. We extract from it the following

description of THE "BUNNIES":

"It is said that a hundred men are the reply

to this question: 'What is the name of the

man who tempts the army to march on the

March, and starts out on our independent

forsaking expedition? Sometimes he is ab-

sent for a few days; occasionally he dis-

appears for weeks; but always he re-

turns to his post, and makes his appear-

ance again, and again, and again."
